

**BIO-key Showcases Biometric Cybersecurity Solutions at MSP Expo Florida (Booth 536) to Support its Growing Distribution Base of Managed Service Providers**

**Fort Lauderdale, FL & Wall, NJ, June 21, 2022** – [BIO-key International, Inc.](#) (Nasdaq: BKYI), an innovative provider of Identity and Access Management (IAM) and Identity-Bound Biometric (IBB) solutions, will showcase its solutions in **Booth #536** at [MSP EXPO](#) June 21-24, 2022 at the Broward County Convention Center, Fort Lauderdale, Florida. Produced by [TMC](#), MSP EXPO is the premier conference and networking summit for Managed Service Providers (MSPs), with expanded reach via its collocation with [ITEXPO](#). BIO-key looks to both support and expand its growing base of Managed Service Providers (MSPs) and Managed Security Service Providers (MSSPs), highlighting the value and capabilities of its differentiated cybersecurity solutions and sharing strategies with channel partners on how to grow their businesses with BIO-key solutions.

BIO-key welcomes the opportunity to extend its Channel Alliance Partner (CAP) Program within the global MSP community and to develop new revenue opportunities for BIO-key and its partners. Attendees are invited to stop by booth #536 to learn how BIO-key and their award-winning [PortalGuard IAM platform](#) can:

- Build a strong recurring revenue stream for their business;
- Differentiate their cybersecurity portfolio with Identity-Bound Biometrics;
- Offer an IAM solution that beats the competition in both features and price;
- Build profitable customer relationships; and
- Help them become a trusted cybersecurity advisor.

For more than 20 years, the conference has brought together MSP business owners and technology specialists to discuss how to drive more recurring revenue, increase the valuation of their company, grow their network, deliver better customer service, and evaluate today's most sought-after technologies.

"We're seeing more MSPs and a new cohort of MSSPs interested in offering cybersecurity solutions which are a growing customer priority in today's environment," said Fred Corsentino, Chief Revenue Officer, BIO-key. "Increases in cyberattacks, cyber insurers requiring multi-factor authentication, the desire to eliminate passwords and providing friction-less access are just some of the reasons customers have a strong interest in our solutions. We look forward to connecting with the global MSP community at this event to discuss how we can help them solve these challenges for their customers and accelerate the grow of their cybersecurity business."

BIO-key PortalGuard offers an unmatched variety of multi-factor authentication (MFA) choices, single sign-on (SSO), self-service password reset (SSPR), and Identity-Bound Biometrics. PortalGuard is well-suited for everyday use cases including remote workforces, third-party access, Customer IAM (CIAM), and passwordless workflows. For over 20 years, PortalGuard

has been trusted by customers across education, healthcare, manufacturing, finance, government, and other sectors to reduce password-related help desk calls by up to 95%, eliminate passwords, secure remote access, prevent phishing attacks, meet cyber insurance requirements, and improve productivity for the IT team.

**BIO-key Safe Harbor Statement**

All statements contained in this press release other than statements of historical facts are "forward-looking statements" as defined in the Private Securities Litigation Reform Act of 1995 (the "Act"). The words "estimate," "project," "intends," "expects," "anticipates," "believes," and similar expressions are intended to identify forward-looking statements. Such forward-looking statements are made based on management's beliefs, as well as assumptions made by, and information currently available to, management pursuant to the "safe harbor" provisions of the Act. These statements are not guarantees of future performance or events and are subject to risks and uncertainties that may cause actual results to differ materially from those included within or implied by such forward-looking statements. These risks and uncertainties include, without limitation, our history of losses and limited revenue; our ability to raise additional capital; our ability to protect our intellectual property; changes in business conditions; changes in our

sales strategy and product development plans; changes in the marketplace; continued services of our executive management team; security breaches; competition in the biometric technology industry; market acceptance of biometric products generally and our products under development; the duration and severity of the current coronavirus COVID-19 pandemic and its effect on our business operations, sales cycles, personnel, and the geographic markets in which we operate; delays in the development of products and statements of assumption underlying any of the foregoing as well as other factors set forth under the caption see "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2021 and other filings with the Securities and Exchange Commission. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date made. Except as required by law, the Company undertakes no obligation to disclose any revision to these forward-looking statements whether as a result of new information, future events, or otherwise. Additionally, there may be other factors of which the Company is not currently aware that may affect matters discussed in forward-looking statements and may also cause actual results to differ materially from those discussed. In particular, the consequences of the coronavirus outbreak to economic conditions and the industry in general and the financial position and operating results of our Company, in particular, have been material, are changing rapidly, and cannot be predicted.
